LDA NEO CONTROL SOFTWARE FOR PA/VA SYSTEM MANAGEMENT

This software allows total control and supervision of the entire system through ethernet network, an easy and intuitive installation and with no configuration required.

It allows a centralized control of the system, volume control, source routing, pre-recorded messages broadcasting ,management of emergency functions and system profiles. It allows setting installation floor plans as GUI interface. Single-user license.
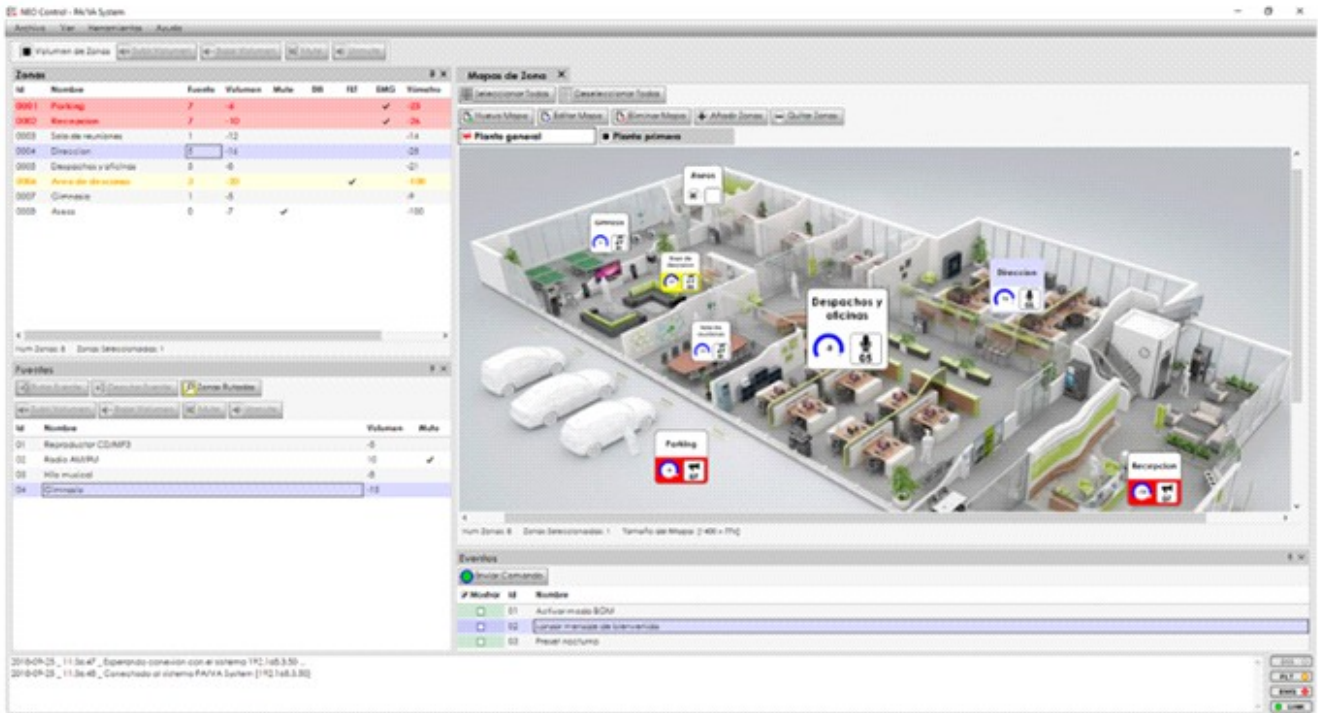

Main features of NEO CONTROL:

- Central and secure control of the NEO system.
- Routing of quality audio.
- Easy to install and configure.
- Volume control.
- Total system supervision (failure, evac mode, etc) by zones.
- Allows to add installation drawing plans.
- Synchronised with the NEO system.
- Without the need to configure databases.
- Exclusive for NEO systems (NEO 8060 and NEO Extensions units).
- One NEO system can accept up to 5 connections from NEO Control.
- NEO Control allows to control only one NEO 8060 + NEO Extensions system. Multiple NEO cannot be controlled by NEO Control.
