

## **Basic Setup Process IQPro on Powermanage Server with IQ Installer App**

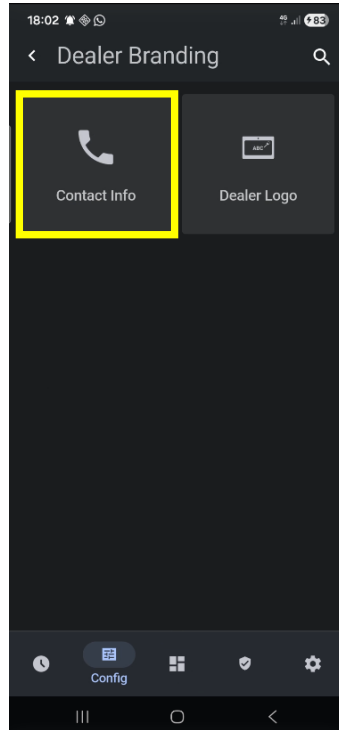

To connect your IQPro to your Dealer Account on Powermanage Server follow the steps:

Connect the IQ Installer App with the IQ Pro panel and go to Configuration Page ( **with Dealer Code 2222 by default, otherwise you're not able to see the Dealer Branding Icon!**)

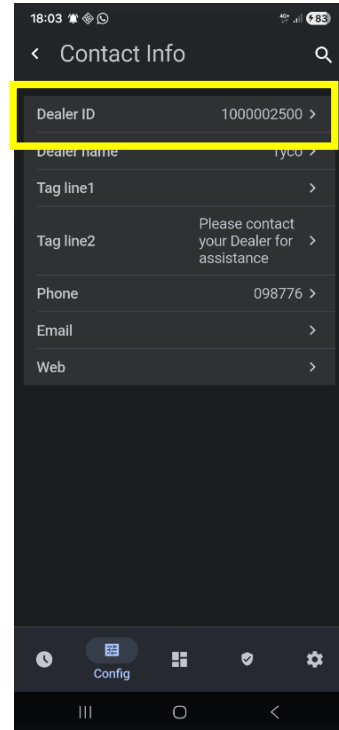

### **1. SETUP Dealer ID:**

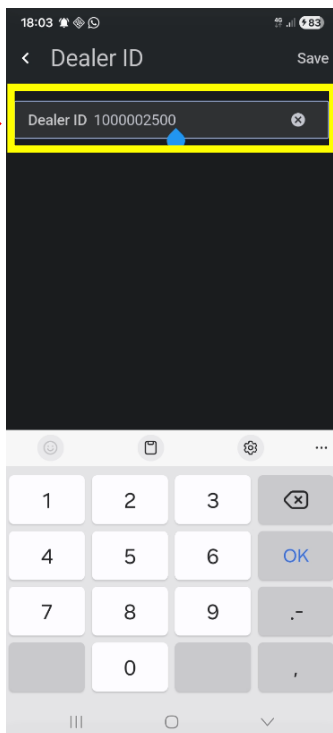

Click on „Dealer Branding“

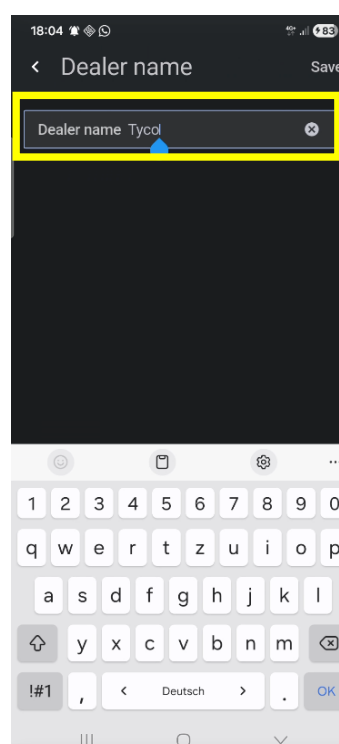

Click on „Contact Info“

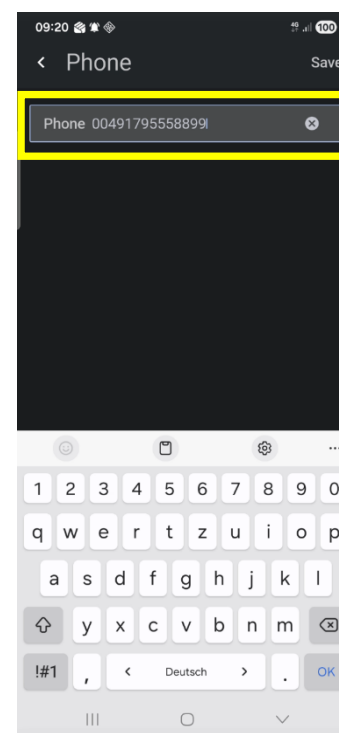

Click on „Dealer ID“

Enter YOUR own Dealer ID  
Click on “SAVE”

Enter YOUR Company  
Name Click on “SAVE”

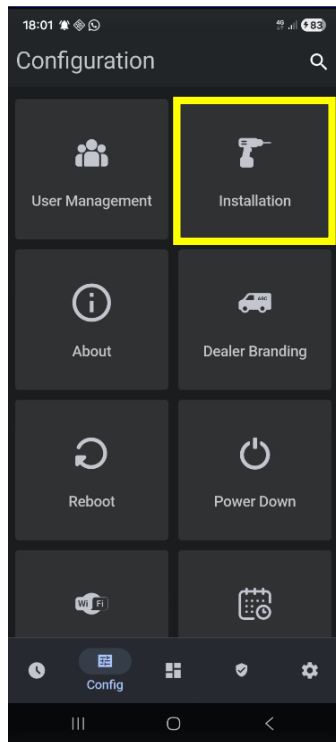

Enter YOUR Phonenummer  
Click on “SAVE”  
Go back to Dashboard

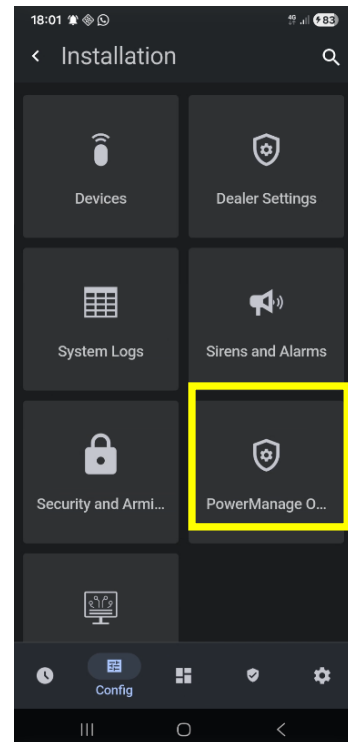

## 2. Setup Connection from IQPanel to Powermanage Server:

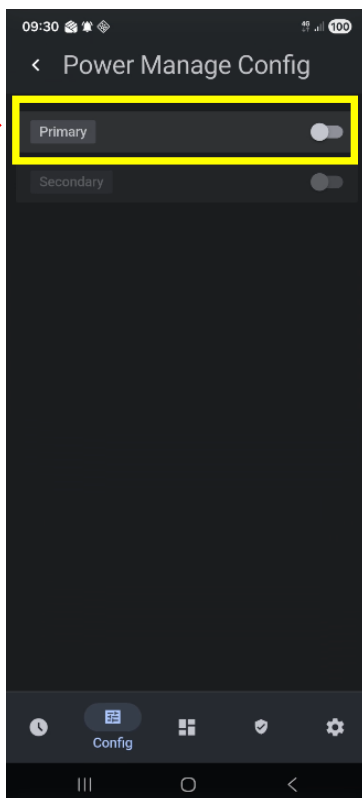

Click on „Config“

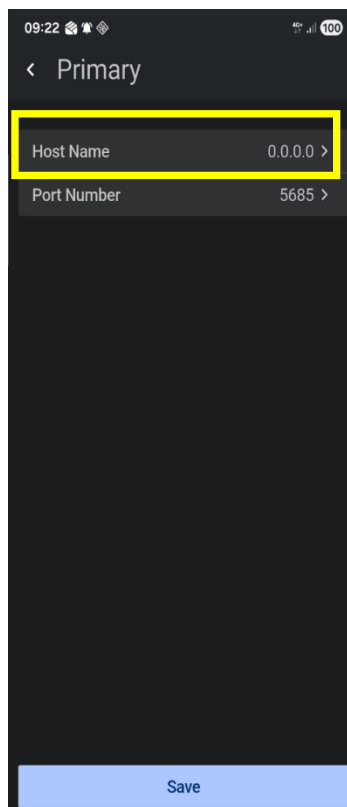

Click on „Installation“

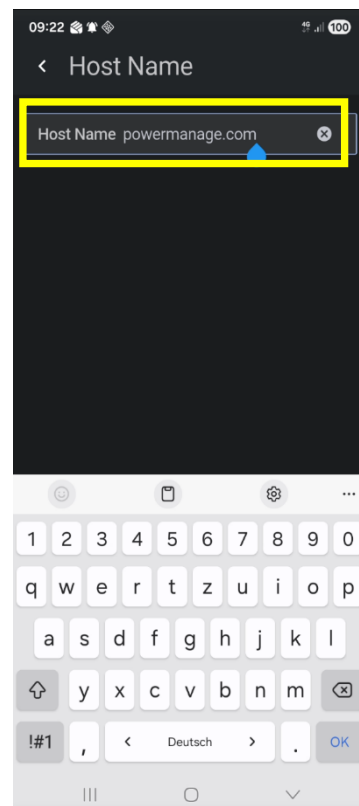

Click on „PowerManage Options“

Enable Slider „Primary“ ONLY!

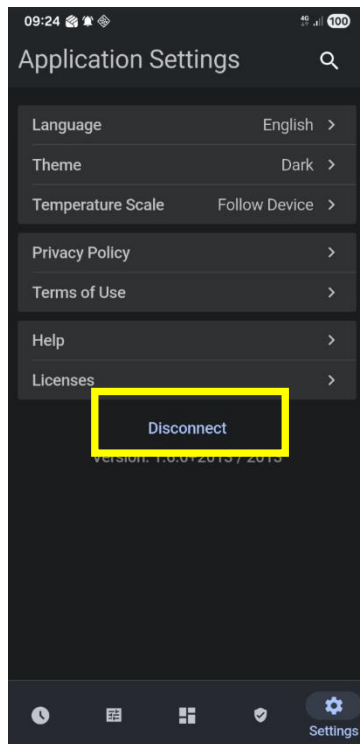

Click on „Host Name“

Enter the Domain Cloud.topsecurity.nl and SAVE - Go back to Dashboard

Click on „Settings“

Click on „Disconnect“ and leave the IQ Installer Application

The IQPro Panel will go online on your Powermanage Server Account within Seconds!

It is shown with a Blue W – Icon:
